4. It is understood that, after a period of 45 days from the date of this agreement, you should be advised in writing of your approach to the problem of disclosure; as fully as possible the statement of our approach to disclosure.

5. An example of this problem which might be covered in the discussion are as follows:

a. Although he considered the responsibility for continuation of HENRY as his personal project with him, it is known that he acted in accordance with HENRY (the project should be given time to mature, complete whatever it is) before he became interested in other projects, such as the FBI's own approach to disclosure. In order to understand the problem fully, the history of his previous approach to disclosure in dealing with the FBI, the nature of the responsibility for his project to the FBI, the approach of the other stations involved in the same project to the FBI, the policy of the FBI in these areas must be determined before any decision is taken.

b. Whether other approaches recently or currently contemplated by either station or the FBI should be considered as a factor. It is known that at least one FBI laboratory - the FBI Laboratory in Washington D.C. - has a file on Project HENRY in which files might be found some relevant material.

P.S. While G.M.B. will brief the subject in general before departure with him,
he will contribute technical information, relieve certain relevant charge
of responsibility, and raise question as to extent he could be
introduced into this highly sensitive operation and subject. If result could be discussed
with him without revealing responsibilities or details of op., his knowledge may
be of value in some cases. (signed) J. J. Robert
